

TREEWALLET

Team 6 Members

Mwangi Valentine - Jomo Kenyatta University

Boboya Nicholas - UNESCO

Luka Wanjohi - CIP

Mirembe Joan - IITA

Joel Amuyunzu Odemu - TechnoServe

Florah Chemtai - University Of Nairobi

#Hack4Farming

Innovation

- **Tree wallet** - A web based application where tree growers, buyers and sellers interact
- Scalability to include other activities (crops, livestock)

Technical Achievement

- Increased market access for tree farmers
- Increased access to quality information
- Increased incomes for smallholder farmers
- Potential to increase percentage forest cover
- Reduce carbon dioxide in the atmosphere

Impact

- Carbon sequestration: mitigate the impacts of climate change and global warming
- Increased SHFs incomes

Revenue Model

- Advertising
- Commission on tree sales
- Distribution
